

Corporate Identity and Logo Development

In order to be visible and distinguishable, any project or organization needs a visual identity ("Corporate Identity"). We developed logos for committees, projects and programmes, e.g. for the

- Technical Committees on Standards in East Africa
- Environmental Pact in Tunisia
- Environmental Network in the Maghreb Region
- Ministère de l'Environnement, Morocco
- Integrated Water Management Programme, Morocco
- GTZ Sector Project on Resource Efficiency and Decoupling

We also redesign existing logos.
